Submittal Distribution Requirements

KEY TO SUBMITTAL REQUIREMENTS:

A	Provide electronic media in CD format of all drawings and related databases used to create the drawings, word processing, spreadsheets, graphs and tables which form all components of a submittal. Provide CD in viewable format similar to the Corps of Engineers Electronic Bid Solicitation (EBS) format--translation is the responsibility of the A-E. Label each CD with the programs used and the file names. Include a file listing matrix which relates each file to the printed material it corresponds to. CADD drawings shall be provided in the electronic form specified in the A-E contract. Provide a README.EXE file on each CD with instructions for extracting information contained on that disk.
B	Include annotated review comments from previous submittal as Appendix to Executive Summary.
C	Telephone Station Requirements Schedule. Update with each subsequent submittal.
D	Development of Construction Management Plan (CMP), incorporation of comments, reproduction and distribution of plan by CESAS. CMP to be finalized prior to award of construction contract.
E	Provide original to office indicated.
F	Interior Design Brochure. Update with each subsequent submittal.
G	Facilities Survey Report for Installation of X-Ray Systems. Update with each subsequent submittal.
H	JCAHO Statement of Conditions (SOC). Draft Statement of Design Conditions (SODC) with Submittal S6. Updated SODC with Backcheck Submittal. SOC at completion of construction.
I	Provide framed photo(s) of renderings.
J	Provide 35 mm color slides in quantities indicated.
K	Provide updates of previous submittals.
L	Provide MX, DIST & VE A-E one electronic media (disk) of CACES estimates, all required backup and ENG Form 3086. Other agencies to receive ENG Form 3086 only.

ADDITIONAL NOTES:

- | | |
|---|--|
| 1 | SAS is to receive four (4) color/material boards with corrected final. |
| 2 | Include ALL marked prints, design analyses, etc., furnished by design sections with corrected final. |

The corrected final submittal will include original plans, specifications, design analysis and annotated project review comments. The A-E will return all marked copies of plans, specifications, design analysis, etc., and draft specifications. Four copies of the approved color/finish boards shall be submitted to the Project Manager. Electronic version of the estimate in MCACES Gold and electronic version of the specifications in SPECSINTACT shall be submitted to the Project Manager.
